

มาตรฐานการผลิตวัคซีนและสารทดสอบโรค

สำนักเทคโนโลยีชีวภัณฑ์สัตว์

ชนิดวัคซีน	มาตรฐาน OIE 
1. โรงงานผลิตวัคซีนโรคปากและเท้าเปื่อย	<p>The Manual of Diagnostic Tests and Vaccines for Terrestrial Animals and the Manual of Diagnostic Tests for Aquatic Animals provide a harmonised approach to disease diagnosis by describing internationally agreed laboratory diagnostic techniques. These manuals were published in 1989 and in 1995, respectively.</p>
1.1 FMD โค-กระบือ	
1.2 FMD สุกร	
2. โรงงานผลิตวัคซีนอหิวาต์สุกรฯ	
2.1 อหิวาต์สุกร (10โด๊ส)	
2.2 กากโรคเปิด	
3. โรงงานผลิตวัคซีนสัตว์ปีก	
3.1 นิวคาสเซิลลาโซต้า เชื่อเป็น 100 โด๊ส	
3.2 วัคซีนรวมนิวคาสเซิลลาโซต้า และหลอดลมอักเสบติดต่อกัน	
3.3 ฝีดาษไก่	
4. โรงงานผลิตวัคซีนแบคทีเรีย	
4.1 เฮโมรายิกเซพติซีเมีย	
4.2 แอนแทรกซ์	
4.3 แบลคเลก	
4.4 บรูเซลโลซิส	
4.5 อหิวาต์เปิด-ไก่	
4.6 แอนติเจนโรสเบงกอล

Standard Setting

- Overview
- Introduction to Specialist Commissions
- Call for experts to join the OIE's Specialist Commissions
- OIE Observatory
- Electronic veterinary certification
- Safe trade for sustainable development
- Terrestrial Code
- Terrestrial Manual
- Aquatic Code
- Aquatic Manual
- Specialists commissions & working & ad hoc Groups

INTERNATIONAL STANDARDS

In the current trend of globalisation, animal health measures have increasing importance to facilitate safe international trade of animals and animal products while avoiding unnecessary impediments to trade. In light of this, the Agreement on the Application of Sanitary and Phytosanitary Measures (SPS Agreement) encourages the members of the World Trade Organization (WTO) to base their sanitary measures on international standards, guidelines and recommendations, where they exist.

The OIE is the WTO reference organisation for standards relating to animal health and zoonoses. The OIE publishes 2 codes (Terrestrial and Aquatic) and 2 manuals (Terrestrial and Aquatic) as the principle reference for WTO members.

The Terrestrial Animal Health Code and Aquatic Animal Health Code respectively aim to assure the sanitary safety of international trade in terrestrial animals and aquatic animals, and their products.

The Terrestrial Animal Health Code was first published in 1968 and the Aquatic Animal Health Code was introduced to the public in 1995. The codes traditionally addressed animal health and zoonoses, but they have, in recent years, expanded to cover animal welfare, animal production food safety, consistent with the expanded mandate of the OIE which is to improve animal health worldwide.

The Manual of Diagnostic Tests and Vaccines for Terrestrial Animals and the Manual of Diagnostic Tests for Aquatic Animals provide a harmonised approach to disease diagnosis by describing internationally agreed laboratory diagnostic techniques. These manuals were published in 1989 and in 1995, respectively.

The OIE regularly updates its international standards as new scientific information comes to light, following its established transparent and democratic procedures. The only pathway for adoption of a standard is via approval of the World Assembly of Delegates meeting in May each year at the OIE General Assembly.
